Eminem's video for "The Real Slim Shady" surfaced recently, bringing with it some pointed barbs at pop music's elite, and a bit of controversy as well.

In the video (the first from his upcoming "The Marshall Mathers LP"), the rapper lampoons 'NSYNC and Britney Spears, among others, and he saves one of his sharpest jabs for Christina Aguilera. As we previously reported, Em suggests in his song that Aguilera has performed a particular sex act on Limp Bizkit frontman Fred Durst and MTV's Carson Daly (see **[article id="1424811"]"Aguilera Responds To Alleged Eminem Dis"[/article]**).

[article id="1443610"]"For one thing, it's not true, so it doesn't bother me,"[/article] Durst told MTV News this week. **[article id="1443610"]"[Eminem is] sort of answering the critics. He's going to the extreme with everything he can to now slap them in the face.... It's so over-the-top."[/article]**

The video for the song is equally

over the top, as a blow-up doll representing the young singer sits between a Daly look-alike and Durst himself at an awards show.

Aguilera has slammed the song, stating, "It's disgusting and offensive and above all it's not true." Durst agrees that the allegation is untrue, though doesn't see the lyric hurting Aguilera's career.

[article id="1443610"]"For one thing, Christina's amazing,"[/article] Durst explained. **[article id="1443610"]"I really like that girl. I think she's an amazing singer. She's gonna have longevity. She's going to be one of those amazing icon women. I'm really attracted to her, I like her, and I've talked to her a couple of times, and that's that. I haven't had any type of relationship with her, or any type of intercourse with her. She's never sucked my d***, she's never sucked Carson's."[/article]**

Daly has told MTV News that he doesn't mind being mentioned in the track and added, "I think the song will be a big

hit" (see **[article id="1428620"]"Eminem Single Arrives Early After 'Net Leak"[/article]**).

Explaining Em's overheated verse, Durst said, **[article id="1443610"]"Maybe she put him on blast one time for one reason or another, and then he put her on blast, and I'm a friend of his, and when he throws me in the mix, I'm not offended. It's so over-the-top, I know that people aren't going to think this is true. But then again, there are so many people who don't know and hear it and go, 'Is that true? Is that true?' And if [MTV News] can clear it up, that would be great." [/article]**

While "The Real Slim Shady" has stirred up turmoil once again, Durst notes that it's apparently just the tip of the controversy iceberg that awaits on "The Marshall Mathers LP.

[article id="1443610"]"The more you feed the fire, the more it's going to keep burning, so if you don't want him to keep ripping everyone up, and talking sh and saying things you**

don't want to hear, as moralistic as you want to be, then quit talking sh**, ignore it,"[/article] Durst told MTV News. **[article id="1443610"]"Going after him... well, you see what going after him did, because this record.... Dude, that song is nothing. It's so over-the-top it's unbelievable." [RealVideo][/article]**.

The Marshall Mathers LP" hits stores on May 23.
